

Airborne EM Surveys Underway at Huckleberry, Séquoi and Idefix

Ottawa, Ontario (June 23, 2016) - Northern Shield Resources Inc. ("Northern Shield" or the "Company") [TSX-V: NRN] is very pleased to provide an update on exploration activities on the Company's properties in the Labrador Trough.

The first phase of sampling and mapping at the Company's Huckleberry property is complete. The program was executed under the terms of the Option Agreement with South 32 announced on June 7th, 2016. Samples are on their way to the laboratory and results from this program are anticipated in approximately four to six weeks. An airborne Mag-VTEM system has been mobilized to the area and a survey is underway at Huckleberry. On completion of the Huckleberry survey, VTEM surveys will then be flown at Séquoi located 10 kilometres east of Huckleberry and Idefix, in the northern Labrador Trough.

The programs at Huckleberry, Séquoi and Idefix will be overseen by Christine Vaillancourt, P. Geo., a Qualified Person under National Instrument 43-101.

Northern Shield Resources Inc. is a Canadian-based company focused on exploring for platinum group element ("PGE") and nickel-copper-PGE deposits. It is known as a leader in grass roots exploration for Ni-Cu-PGEs and the understanding of magmatic systems as it applies to exploration.

Forward-Looking Statements Advisory

This news release contains statements concerning the exploration plans, results and potential Cu-Ni-PGE and other mineralization at the Company's southern Labrador Trough properties, geological, and geometrical analyses of the southern Labrador Trough properties and comparisons of the properties to known Cu-Ni-PGE deposits, and other expectations, plans, goals, objectives, assumptions, information or statements about future events, conditions, results of exploration or performance that may constitute forward-looking statements or information under applicable securities legislation. Such forward-looking statements or information are based on a number of assumptions, which may prove to be incorrect.

Although Northern Shield believes that the expectations reflected in such forward-looking statements or information are reasonable, undue reliance should not be placed on forward-looking statements because Northern Shield can give no assurance that such expectations will prove to be correct. Forward-looking statements or information are based on current expectations, estimates and projections that involve a number of risks and uncertainties which could cause actual results to differ materially from those anticipated by Northern Shield and described in the forward-looking statements or information. These risks and uncertainties include, but are not limited to, risks associated with geological, geometrical and geophysical interpretation and analysis, the ability of Northern Shield to obtain financing, equipment, supplies and qualified personnel necessary to carry on exploration and the general risks and uncertainties involved in mineral exploration and analysis.

The forward-looking statements or information contained in this news release are made as of the date hereof and Northern Shield undertakes no obligation to update publicly or revise any forward-looking statements or information, whether as a result of new information, future events or otherwise, unless so required by applicable securities laws

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
